

Rajvi Chauhan

Full-stack Developer

EXPERIENCE

Red & White Multimedia Education, Bhavnagar — Full Stack Developer Training

- Currently undergoing practical training in full stack development.
- Learning and working with technologies like React.js, Node.js, MongoDB, and Express.js.
- Building real-world projects under mentor guidance.

EDUCATION

Gujarat Technological University — B.E. in Information Technology

Gyanmanjari Institute of Technology, Bhavnagar

2022 – 2026

PROJECTS

Shopping-kart — <https://github.com/rajvichauhan77/JS-Cart.git>

Developed a dynamic shopping cart web app with features like user login/logout, add to cart, and category-based product filtering.

Todo-list — <https://github.com/rajvichauhan77/JS-Todo.git>

Built an interactive to-do list with features to add, edit, update, delete, and view detailed tasks. Used Local Storage to persist data across sessions without a backend.

SKILLS

Frontend: HTML, CSS, Bootstrap, jQuery, Tailwind CSS

Programming: C++, JavaScript

Tools: Git, GitHub

Backend (Training): Node.js, Express.js

Database (Training): MongoDB
